

Weddings at Invisible Wind Factory.

An alternative venue for unique weddings

Nestled in the vibrant heart of Liverpool, Invisible Wind Factory is not just a venue; it's a symphony of love, art, culture, and music, waiting to become the backdrop of your unique love story.

We are more than just a music venue; we're the perfect setting for your wedding day, where melodies and matrimony harmoniously intertwine. IWF is a renowned music venue that transforms into a romantic and dynamic space for couples looking to tie the knot in a setting that resonates with their passion for music, art and culture.

Imagine saying your vows in a space that's witnessed countless musical legends and now stands witness to your love story. At IWF, your wedding day will be a unique blend of timeless elegance and the vibrant energy of live music.

About Us

IWF is a multi-disciplinary arts, music and cultural events space, regularly hosting a range of exciting and varied performance, experiences and live events. Within our redbrick, industrial home, we are proud to have hosted such incredible acts as The Sun Ra Arkestra, Bicep, Caribou, Floating Points and Groove Armada.

Housed in a former wind turbine factory on the historic docklands of the River Mersey, Invisible Wind Factory is an artist-run space and production company, where disciplines in design, electronics, lighting, audio production and construction, are woven together to create a truly unique multi faceted venue.

Since founding The Kazimier in 2008, we have been a pillar of creativity in Liverpool. A passionate team with community at the heart of everything we do and the reputation to go with it we've got the knowledge and passion to handle all your requests, as specific, unique and seemingly strange as they may be.
